Our Services

The Columbiana County Health Department Cancer Detection Clinic offers free and reduced-fee cancer screening services to the residents of the Columbiana County General Health District. With contributions from a community supported levy, our programs provide the residents with life-saving screening services that have proudly been offered for over 30 years. The Cancer Detection Clinic accepts patients through self-referral and/or physician referral.

Women may take advantage of FREE Pap tests, pelvic exams, clinical breast exams, and mammograms.

Men may take advantage of FREE Prostate Screening with a simple blood test.

Both men and women and children are welcome to schedule for a FREE skin cancer screening.

Our Goal for You

Our friendly, helpful, informative and caring staff provides personal patient care.

To expand the number of patients that use our Cancer Detection Clinic services, increase cancer screening awareness, and promote preventive health screening services.

We work cooperatively with family physicians, gynecologists, dermatologists, general practitioners, and specialists by sharing lab results, medical reports, referral, and follow-up information.

Scheduling is Easy

Please call today for more information or for an appointment (330) 424-0272 x 114
